Taylor Joins OmniTRAX Energy Solutions to Bolster Business Growth Effort

DENVER March 05, 2019: OmniTRAX, Inc., one of the largest privately held transportation service companies in North America and an affiliate of The Broe Group, announces OmniTRAX Energy Solutions (OES) has added Casey Taylor as Vice President of Sales effective immediately. He reports to Justin Renfro, President of OES.

“OES continues to grow and fine tune the service offering for our customers, so we are reinforcing our team to ensure that the right people are in the right places to provide E&P, OES companies, sand miners and other stakeholders what they need when they need it. Casey has great experience and a first rate network, so we are lucky to have him on board,” said Renfro.

Taylor joins the OmniTRAX Energy Solutions team as Vice President of Sales. Casey comes to OES from Preferred Sands, where he most recently served as Vice President of sales, responsible for business development in the Permian Basin. He has more than a decade of experience in the oil and gas industry, ranging from specialty gas to sand sales and sourcing with many of the major O&G operators and service companies. Taylor is responsible for further developing relationships with new and existing customers for both Arrows Up and terminals. He will also leverage his industry expertise and network to advance awareness of OES as a fully integrated logistics provider delivering operational efficiencies from mine to wellhead.

“I’m looking forward to help drive business opportunities for OES as we create even more supply chain efficiencies for all the players in the basins around the country,” said Taylor.

OES comprises the company’s unique offerings to the proppant supply chain, including terminals in several basins, transload operations and Arrows UP, LLC, a containerized proppant delivery and storage solution provider, plus the ShaleTECH Transport joint venture that provides last-mile transportation and energy logistics solutions.

About OmniTRAX Energy Solutions

OmniTRAX Energy Solutions (OES) provides a comprehensive proppant delivery solution to customers in the most prominent frac sand areas and oil and gas basins in the U.S. OES delivers scalable, cost-cutting mine-to-wellhead supply chain services through its network of railroads and terminals servicing the Bakken, DJ, Eagle Ford and Permian basins and many of the largest mining areas.

About OmniTRAX, Inc.

As one of North America’s largest private railroad and transportation management companies, OmniTRAX's core capabilities include providing management services to its affiliated railroad, port, intermodal and industrial switching operations. Through its affiliation with The Broe Group and its portfolio of managed companies, OmniTRAX also has the unique capability of offering specialized industrial development and real estate solutions, both on and off the rail network managed by OmniTRAX. More information is available at www.omnitrax.com.
